

AI Use Declaration Form

Course: Introduction to Artificial Intelligence

Lab Title: Lab 1 Part A — Uninformed Search Algorithms

Student Name: _____ Salma A.D. Nabonadam

Student ID: ____83402028_____

GitHub Repository Link: _____

Date Submitted: 20th june 2028

1. AI Use Summary

Question

Student Response

Did you use any AI tool for this lab?

yes

Estimated percentage of the work influenced by AI

20 or less

%

Did you attach evidence of AI use where applicable?

yes

2. Details of AI Use

Complete the table below for each AI tool used. Add more rows where necessary.

Name of AI Tool Used

deepseek

Purpose for Using the Tool

I used the shortcuts in vs code to fix issues regarding the imports so my code will run and to help with setting up my environments

An example is

```
import matplotlib.pyplot as plt
try:
    import matplotlib.pyplot as plt
except ImportError:
    # Minimal dummy pyplot with the methods used in this notebook.
    class _DummyAxes:
        def __init__(self):
            self._patches = []

        def set_xlim(self, *args, **kwargs):
            pass

        def set_ylim(self, *args, **kwargs):
            pass

        def set_aspect(self, *args, **kwargs):
            pass

        def axis(self, *args, **kwargs):
            pass

        def set_title(self, *args, **kwargs):
            pass

        def add_patch(self, p):
            self._patches.append(p)

        def text(self, *args, **kwargs):
```

I used ai in helping me correct code that could not run an example is

```
results = [
    bfs.search(problem),
    dfs.search(problem),
    dls.search(problem, limit=10),
    ids.search(problem, max_depth=30),
]

show_results(results)
```

Prompt or Instruction Given to the Tool

Part(s) of the Work Influenced by the Tool

How I Verified, Edited, or Improved the AI Output
I tested the code manually and compared the results

3. Attachment of AI Output Evidence

Where required, attach evidence of AI use. Tick all that apply. Add more rows where necessary.

Evidence Type

Attached? (Yes, No, N/A)

AI-generated draft

Prompt history

Screenshot of AI interaction

```

def is_goal(self, state: Tuple[int, int]) -> bool:
    return state == self.goal

def actions(self, state: Tuple[int, int]) -> List[str]:
    legal_actions = []
    row, col = state
    for action, (dr, dc) in MOVES.items():
        next_state = (row + dr, col + dc)
        if self.in_bounds(next_state) and self.is_free(next_state):
            legal_actions.append(action)
    return legal_actions

def result(self, state: Tuple[int, int], action: str) -> Tuple[int, int]:
    dr, dc = MOVES[action]
    row, col = state
    return (row + dr, col + dc)

def action_cost(self, state: Tuple[int, int], action: str, next_state: Tuple[int, int]) -> float:
    return 1

```

These are the **correct implementations** for the `GridProblem` class methods! Those methods must be inside the `GridProblem` class, **NOT** inside the `Problem` class.

How Your Code Should Be Structured:

```
~~~~~  
File "C:\Users\USER\Documents\New folder\Lib\subprocess.py", line 472, in  
check_output  
    return run(*popenargs, stdout=PIPE, timeout=timeout, check=True,  
    ~~~~~  
    **kwargs).stdout  
    ~~~~~  
File "C:\Users\USER\Documents\New folder\Lib\subprocess.py", line 556, in run  
    stdout, stderr = process.communicate(input, timeout=timeout)  
    ~~~~~  
File "C:\Users\USER\Documents\New folder\Lib\subprocess.py", line 1209, in  
communicate  
    stdout = self.stdout.read()  
KeyboardInterrupt  
PS C:\Users\USER\OneDrive\Desktop\Intro to Ai> python -m venv venv
```

The error you're seeing is a `KeyboardInterrupt` which means the virtual environment creation was interrupted (you probably pressed Ctrl+C). Let's fix this step by step.

Fixing Your Virtual Environment Setup

Step 1: Clean Up the Failed Attempt

First, let's remove the partially created virtual environment:

4. Student Declaration

I declare that:

Declaration Statement

Response (Yes/No)

The submitted work is my own work. yes

Any use of AI tools has been clearly declared in this form.yes

The prompts, instructions, and AI-generated outputs have been disclosed where applicable.yes

I reviewed, tested, edited, and improved any AI-generated content before submission.yes

My AI usage does not exceed 25% of the entire work.yes

I understand that undeclared or excessive AI use may be treated as academic misconduct.yes
